

Student-Teacher Conferencing Exemplar

Student: _____

Date: _____

Prompts:

- Describe the strategy you used to determine the percentage of green space at our school.
- Describe how you plan to share your learning. What materials do you require?
- Share 2 ways you plan to increase the green space.
- Do you think our school can do a better job at maintaining green space and the environment?
- How can you make our learning more visually appealing? What type of art project do you think will help?
- What questions do you have about this project?

Notes: _____
